Alaska Blu Lights DR is a well-balanced stallion with a pretty head, short back, and a big hip. He is a very pretty and athletic mover. He has a quiet disposition, is easy to work with and very trainable.

AK has been shown a handful of times, placing high in western pleasure and reining classes. We have used him on the ranch dragging calves, and in the mountains moving cows, where he has proven himself to be sure footed and willing to go all day in some rough country.

Alaska Blue Lights DR is producing a high percentage of roan foals with great conformation and dispositions.

Blue Grullo Magic has been a great Stallion for us. We have only had Blue for a short time but he has impressed us with his disposition, ability and color. Blue has only been shown a few times but has been a perfect gentleman in and out of the arena. Most of Blue's babies have gone on to be Ranch horses, trail horses and other noncompetative disciplines. However we have some young ones in training at this time, that are great prospects for roping, working cow horse, barrel racing and single action shooting. We have always joked about Blue going back to Secretariat. Blue is not a race horse hie is a working horse. However with the right cross you may have a nice runner. Blue is a color producer. He has produces, Duns, Grullos, and roans. He is 5 Panel N/N Inspection available anytime. Text messaging is usually best as we are usually busy. Live cover /AI. Chute and shipping fees negotiable.

SPANISH FINEST, "Buck", is a fancy, modern Wiescamp stallion - a linebred horse with athleticism, intelligence, and sound conformation, with a solid pedigree to boot.

Buck was bred in Arkansas by the late Janet Manes and comes from a long line of incredible horses. He is a solid 15.1 with room to grow, and although he is young he has already sired a handful of beautiful foals that are showing size, bone, and refinement. His sire, Skippoleon, is one of the few sons of sought after stallion Skips Napoleon, and is out of St Robin, daughter of legendary St Sheila. Buck's dam, Spanish Moccasin, is a fantastic mare from Senkbiel stock.

Buck is bred to work on the ranch or in the show pen, and his gentle, curious demeanor makes him a quick study. He will be broke to ride this summer, and we are looking forward to getting him working on cattle. Buck is built right and a beautiful mover, and those traits have carried through into his foals.

This is his first breeding season here in Utah, and we can't wait to see what he will throw for us! For more information about Spanish Finest visit janespeak.com

Spark is a 6 year old son of the goodbye lane and out of a proven 1D barrel mare. He's 6 panel clear. From the way I understand his color panel he is only going to throw color. He's currently running barrels in college rodeo. He also is quiet enough for my 2 year old to ride. He's great on the trails. around cows, and ready to run when he sees the barrels.
